

Catherine Blakemore

I have enjoyed coming to Mammoth Lakes since the early 1960's; joining my grandparents and parents who first vacationed in the Eastern Sierras in the 1930's. My husband, Bill Wild, and I began staying at Mammoth Estates in the mid 1970's and purchased Unit 117 in 2003. I was first elected to the Board of Directors in 2012 and currently am the Board's President.

I am originally from Southern California graduating from UC Riverside and Loyola Law School. I now live in El Dorado County and recently retired as the Executive Director of a state-wide legal services program. I previously served on the HOA Board and as Secretary of our home-owners association in El Dorado Hills.

Mammoth has been the gathering place for our extended family for generations. I look forward to working with the board and our management team to enhance the beauty and amenities of Mammoth Estates and ensure that it remains the well-managed, family-friendly place it has been for decades.

Ann Cooper

I have served as the Treasurer of Mammoth Estates since 2016. I currently work as a financial advisor. I have a BS in Finance from Boston University, an MBA from Cal State Long Beach and a Certificate in Personal Financial Planning from UCLA. I am also a Certified Financial Planner practitioner. I also have many years of volunteer experience with a range of organizations.

I grew up in the Pacific Northwest and have been an avid skier since the late 60s. My husband Vic, a patent attorney, and I met at Mammoth Mountain in the mid 80s and have been skiing here regularly ever since. We've been owners at Mammoth Estates since 2004 and have enjoyed the benefits of being owners here in the Sierra. We love to share our condo with our two adult children as well as other family and friends.

Dan Sherby

With over 20 years of previous experience as a licensed CPA, including a decade as the Corporate Controller for Yamaha Motor Corporation USA, I bring extensive financial and managerial expertise to my role on the Mammoth Estates Board. Additionally, I have held a real estate broker license and mortgage lender license for more than 15 years.

Since joining the Mammoth Estates Board in 2021, I have contributed to the homeowners association in several capacities, including as Chair of the Insurance Committee, Chair of the Election Committee, and as a member of the Architectural Committee. My wife, Jen, and I have been proud homeowners in Mammoth Estates since 2020.

As a former corporate controller, I possess a strong understanding of organizational budgeting, financial planning, and the implementation of business process improvements. My background in real estate further reinforces my commitment to preserving and enhancing the community's property values by maintaining and improving common areas.

I am passionate about improving communication among homeowners and have taken initiatives, such as encouraging participation in a dedicated Facebook group, to strengthen community engagement. I look forward to continuing to work collaboratively with the board, property management team, and homeowners to ensure that Mammoth Estates remains a vibrant and well-served community for years to come.

Mark Acosta

Mark is married to his wife Donna (29 years), lives in Simi Valley and is the father of 4 children; 2 biological and two adopted. He is involved in several non-profit organizations related to homelessness, inner city youth and the Ventura County foster care community. Mark currently serves on the board of the Ventura County, Children's Services Auxiliary, a non-profit focused on meeting the needs of the foster care community. He also founded a scholarship program to allow foster youth the ability to pursue higher levels of education where it might not otherwise be affordable. He also held a board position with the HOA community in which he resides.

Mark has been in the mortgage servicing related industry for 36 years and is currently employed at PennyMac Financial Services; Managing Director of Loan Servicing, Default. In that role, he is focused on home ownership retention, loss mitigation and neighborhood stabilization.

Phil Beach

I taught High School Science for 35 years. During those years I have been on numerous committees where we worked towards common goals. We covered everything from planning, curriculum development, discipline, accreditation and many other topics. I have collaborated on at least 30 committees and have successfully contributed one each on. I have been visiting and staying in Mammoth for over 32 years and love the place. Four years ago we were able to buy a place and I was finally able to spend a lot of time in the place I love. Not that I am invested in a home that I spent a lot of time remodeling I am interested preserving and maintaining the quality environment community that Mammoth Estates represents. This is the reason that I have volunteered to submit my application to be on the board. Board meetings should be no problem to attend as I always need another excuse to ditch my home responsibilities and come to Mammoth

Matt Hicks

My first trip to Mammoth was in college in the 1990's while learning what was then the new sport of snowboarding. I was immediately hooked by the experience and all that the mountain resort had to offer. Shortly after graduation and many trips later, two college friends and I purchased and renovated Mammoth Estates Unit 110. What began as primarily a winter vacation spot for me became a year around get away that I enjoy as often as I can.

I grew up and currently live in Southern California where I am the owner of a civil engineering and land surveying firm located in Redlands. The business was started by my great-grandfather and has been passed down through four generations of our family. I am a graduate of Cal Poly Pomona where I earned my engineering degree and attended the University of Redlands in 2005 for a master's degree in business administration.

I hold a real estate broker's license in California and currently manage both commercial and residential properties in California and Florida. It is through this business experience that I have interacted with many HOA boards and community associations. I look forward to engaging with the other board members, owners and management team to keep Mammoth Estate's a great place to own and enjoy the Eastern Sierra's.

Kathleen Carnevale

My husband and I purchased our condominium in Mammoth in November 2021. Our unit was a bit dated and in need of some TLC. I found myself constantly reaching out to Julie for advice and guidance and discovered that I have an interest in being a part of the engine that keeps our HOA running smoothly. I have no experience of being on a HOA board, however, I have many years of experience managing properties, so I am hoping that I will be of assistance. While raising our sons I did serve on a few boards, mainly within their soccer organizations and church. I work part-time for my husband's family business. We have two adult sons and two flat coated retrievers. Our permanent residence is in Long Beach.
