

Mammoth Estates Condominiums, Inc.

Work to be performed this week, starting today.

Greetings!.

We are excited to report that the Asphalt Company came sooner than expected and started making the much-needed asphalt repairs around our complex! It is expected that the repairs will take about a week; therefore, please be aware of the situation and be prepared to park in less convenient locations.

Please let your family and guests know that although they have complete access, they should use caution when passing the marked areas where work is being done.

Thank you,
Julie Thompson
